

Marinadesign

Marinadesign was established 2003 as a boutique in Enköping, a town about 100 km from Stockholm. In the "Marinadesign" boutique you can find dresses for weddings and other celebration events and parties. The dresses are for women and men. The establisher and owner is **Marina Toranian**. Marina immigrated to Sweden from Libanon 1985. She is a mother of two children, a son that is 23 years old and a little daughter, Julia, 5 and a half years old.

As many immigrants in Sweden Marina had difficulties to find a good job at the labour market. So she decided to solve the situation by herself. She started the company 2003 and today Marinadesign is a wellknown company not only in Enköping, but also in other parts of Sweden. This depends on the web-page www.marinadesign.se, where Marina is selling the dresses too.

Until now the www.marinadesign.se is only in Swedish language. But if you go into it and look at www.marinadesign.se/mattbestallning.htm you can see Marina Toranian as a model.

You that joined the transnational FEM-meeting in Panavesys, Lithuania in September 2005 recognized Marina as one of the women in the Swedish group. She participated in the meeting to establish new contacts in other countries in the FEM. Marinas plans are to launch her own collection of designed dresses and have cooperation with entrepreneurs in Estonia, Latvia, Lithuania or Poland for sewing.
