

Ms Anita Piroga – philologist, certified psycho-therapist, floral designer, publicist.

Since 2002, Ms Anita Piroga has been involved in the work of Latvia's Rural Women Association, giving lectures and practical lessons in personal development. She is also gives courses in floral design and publishes articles in newspapers and magazines.

Since 2002, Ms Anita Piroga leads the group of floral designers „Flora+” in Murmuiza, Kauguri community, the Valmiera District of Latvia. The group implements the most ambitious ideas using various natural and artificial materials.

The group has taken part in many events, for example, the famous exhibition in Ramava (Latvia), international exhibition „Skilful Woman” in Valga (Estonia), exhibition *Intertextil Balticum* in Kipsala (Latvia) etc.

The products of “Flora+” are based on a large scale of wicker carcasses with different materials – self-made, dried and artificial flowers, plants, fabrics, serviettes etc. When preparing for exhibitions, the group can make, for instance, various hats – some as large wall decors, others – with decoration of flowers. The group likes to make shows and sketches because each piece of art has its own image, name and symbolic meaning.
