

My name is Jurate Mierkiene, I live in Klaipeda, Lithuania. Since school times I am interested in art. I have education in arts and ten years of experience in working on art processing leather. I am making unitary accessories of leather: purses, belts, boxes of ornaments, covers of books and other things.

For manufacturing ornaments I use not only leather, but also other materials: glass beads, different stones, amber. I do celebratory cards. My author's works are delivered to Sweden, Spain, America. Since 1996 I participate in various exhibitions.
