

Ms Gelinta Egendorfa is an entrepreneur from Ventpils district, Latvia. She is 33, but her activities with horses started 20 years ago when she decided to become an animal husbandry expert. Five years ago the horse breeding farm “Demora” was established.

To date the farm hosts 13 Latvian selected horses and they are being bred for horse-riding, sports and sale (3 - 4 a year). The stable has space for rent to other owners' horses. The farm is a member of the national Latvian Horse-breeders' Club.

As Ventpils city is a well-known tourism destination, horse-breeding and riding possibilities add to tourist recreation activities.
