

Inguna Grisane – entrepreneur from Latvia, Saldus.  
She is a dressmaker, graduated Riga Professional School, have received training in different courses of embroidering and modelling of clothes by “Burda Moden” School in Riga.

Inguna works very creatively and receives individual orders for making dresses and decorative (artificial) flowers in her small atelier.

She would like to establish cooperation and receive orders from the cooperation partners dealing with embroidering – clothes, shawls, tables clothes, mats. She would also like to receive orders related to making decorative flowers – we can put these flowers into vases, combine them with the shawls, table clothes and mats with floral motif to improve interior. She can make decorative flowers for every day occasions and for celebrations, like for wedding dresses.
