

Tourism and PIRET TALISTU

We started dealing with tourism primarily because our family moved to Kauksi, which is known as a tourism area.

We started with the Kauksi Holiday Home (website: my.tele2.ee/kauksipuhkemaja/). To a great degree, our next project, Meintack, the Mäetaguse manor hotel (www.moisahotell.ee) has taken place due to a series of coincidences and to a developing sense of confidence. Currently, we do not plan to expand our enterprise any further. However, we plan to improve quality and diversify activities.

A need for specialized in-service training led me to study country tourism at the Olustvere School for Service and Rural Economy. The FEM project gave me incentive and courage to develop this year. My family helps in the enterprise in every way. I hope that the girls will get their first entrepreneurial experiences here.

I am interested in business contacts with travel organizers in other countries.

Sometimes, it is also interested so visit those working in the same field.

I love travelling and working in my garden at home.

In my free time, I deal with folk dancing and choral singing.
